PROFESSIONAL SUMMARY

Senior Full Stack Developer (MERN) with **7.5+ years** of experience **architecting** and **delivering production-grade applications** across **ERP**, **SaaS**, and **hospitality** domains. Adept at owning technical decisions end-to-end and **leveraging AI-assisted** workflows to ship complex systems on time. Looking to step into a Tech Lead role.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, Redux Toolkit, React Query, JavaScript (ES6+), jQuery, HTML5, CSS3
Backend:	Node.js, Express.js, NestJS, Fastify, Platformatic, RESTful APIs, GraphQL
Databases:	MongoDB, PostgreSQL, MySQL, Redis, Prisma ORM, Sequelize ORM
Cloud & DevOps:	AWS (EC2, S3, Lambda, RDS), Docker, CI/CD
Tools:	Git, Postman, VS Code, Jira, Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior Software Developer — Apr 2023 – Present

TrooTech Business Solutions Pvt. Ltd. | Surat, Gujarat

- Led end-to-end full stack development of enterprise ERP modules — Accounting, Sales, Procurement, Manufacturing, Inventory, and HRMS — driving workflow automation and cross-module integration.
- Architected a knowledge base-powered customer support system leveraging document embeddings, significantly reducing manual support effort and enabling instant contextual query resolution.
- Built and scaled a social media monetization platform for content creators, supporting subscriptions, private media sharing, and engagement features with payment gateway integration.

Senior Software Developer — Nov 2022 – Jan 2023

Gateway Group of Companies | Ahmedabad, Gujarat

- Contributed to a microservice-based automotive platform enabling multi-location spare parts tracking, improving inventory visibility and operational efficiency across branches.

Senior Software Developer — Mar 2022 – Sep 2022

Doyenhub Software Solutions | Surat, Gujarat

- Designed and delivered a location-based handyman hiring platform featuring real-time quotations, online payments, review management, and geolocation matching.
- Developed real-time operational dashboards to track process metrics, resource utilization, and training status across teams.

Senior Software Developer — Feb 2021 – Feb 2022

Agami Tech Pvt. Ltd. | Surat, Gujarat

- Built an omnichannel customer care platform integrating chat and voice bots for multi-channel customer interactions across voice, email, SMS, webchat, and social channels.

- Developed multi-channel analytics dashboards measuring customer satisfaction metrics for agent performance tracking and training insights.

Software Developer Mar 2018 – Feb 2021

Yanolja Cloud Solutions (formerly eZee Technosys) | Surat, Gujarat

- Delivered product-level enhancements for Hotel Property Management System (PMS), improving scalability, UI responsiveness, and user experience.
- Led migration from legacy PHP templating to React-based SPA architecture, achieving 60% faster page load times and significantly improved maintainability.
- Consolidated multiple hospitality APIs (PMS, Reservations, Housekeeping, OTA integrations) into a unified Open API ecosystem with standardized authentication.

KEY PROJECTS

Enterprise ERP System | *React.js, Fastify, Platformatic, MySQL, MongoDB, Redis*

- Architected and led full-stack development of a comprehensive business management platform spanning Accounting, Sales, Procurement, Manufacturing, Inventory, and HRMS modules.
- Designed automated workflow engine handling purchase-to-pay cycles, order-to-cash processes, and manufacturing operations — significantly reducing manual intervention across departments.
- Built cross-module integration layers connecting Accounting with Inventory, Sales with Procurement, and Manufacturing with HRMS, creating a unified real-time data ecosystem.
- Developed real-time analytics dashboards giving business stakeholders live visibility into operational metrics, bottlenecks, and team performance across all modules.

Knowledge Base & Customer Support System | *NestJS, React.js, Prisma ORM, PostgreSQL*

- Enterprise search platform with document ingestion and embedding-based search, plus a browser extension enabling instant contextual query resolution — eliminating manual document review for support teams.

Social Media Monetization Platform | *React.js, Node.js, Redux Toolkit, Sequelize ORM, MongoDB*

- Content creator platform with subscription tiers, private media sharing, story posting, and payment gateway integration.

Hotel Property Management System (PMS) | *React.js, Core PHP, RESTful APIs*

- Worked extensively on a product-grade Hotel PMS across core modules — reservations, front desk, housekeeping, and billing — gaining deep expertise in complex, multi-tenant hospitality workflows.
- Led migration from legacy PHP templating to React-based architecture, significantly improving UI responsiveness and long-term maintainability.

EDUCATION

M.Tech — Electronics and Communication Engineering May 2015

UKA Tarsadia University (CGPIT), Bardoli, Gujarat | CGPA: 9.37 — **Gold Medalist**

B.E. — Electronics and Communication Engineering May 2013

Babaria Institute of Technology (BITS Edu-Campus), Vadodara, Gujarat | CGPA: 9.12
